

Factsheet Elektro-Data 2021

For more than 30 years now, Elektro Data is the technical magazine on industrial electronics industrial automation and energy technology.

Elektro Data focuses on a mix of technical articles and product information on behalf of electronic engineers, technical automation experts, electrical engineers, industrial installers, LED-lighting experts and drive-technology engineers in the Netherlands and Belgium, who deal with designing, producing, applying and the maintenance of production means in the machine-building branch, process industry, electronics industry, chemical industry, electrotechnical industry, LED-lighting industry, metals industry, engineering agencies and installation agencies. Fixed columns are: Industrial electronics, Machine building & Production automation, Process automation & Control, Energy & Infrastructure, Test & Measurement.

Edition in the Benelux: **10,000 printed copies**; moreover, all advertisements are also placed free of charge in Elektro Data ezine (www.elektrodata.nl/ezine); with 6,500 subscribers. Thus its reach is multimedial, so also considerably extended.

Publication dates and special focuses

Edition	Publication	Closing date	Theme 2021
1	22 February	02 February	Industriële IoT
2	06 April	17 March	Wireless communication
3	11 May	21 April	
4	21 September	01 September	Electronics & Applications
5	26 October	06 October	Safety & Security
6	07 December	17 November	Artificial Intelligence (AI)
